Exhibitors testimonial

ANUTECH - International FoodTec India is a great show, now we are back and we are happy, very well managed. We had good visitors from Haldiram, ITC, PepsiCo, who's who of the industry and it is good to be back here.

Nishant Bansal, Managing Director, Noida Fabcon Machines Pvt. Ltd.

It is very nice to be back here in the industry, meet our customers' physically, show them our equipment and discuss with them their future projects

**Manoj Paul - Operations Head and Country Manager
Heat and Control (South Asia) Pvt. Ltd.**

We are pretty happy to see that we are getting very relevant responses, the crowd is filtered and we are getting more precise and subjective response

**Tanuj Agrawal - Vice President
Domino Printech India LLP**

Visitors testimonial

A collage of black and white photographs from an exhibition. The photos show various people, mostly men in business attire, interacting at different booths. Some are standing and talking, while others are seated at tables. Booths with signs like 'AVONFLEX' and 'KOELN FOR FOOD & FOOD' are visible in the background.

It feels great to visit, look at the developments that have happened in the last two years, it's also nice to meet industry people and friends. Certainly, we think that given the criticality of the food industry, it's a great place to be in ANUTEC India.

**Sanjay Singhal - Chief Operating Officer, Dairy and Beverages
ITC Limited**

I am quite thrilled to be here because after 3 years there is a physical exhibition happening and this is the fantastic exhibition. I can see the pains that have been taken to set up such a beautiful show. The scope of machinery both Indian and imported is enormous as far as food industry is concern.

**Mukhtar Tejani, Managing Director
Gits Food Products Pvt. Ltd.**

Happy to visit this exhibition by Koelnmesse on packaging and equipment technology. It's a very very important segment in India food processing industry. We are happy to see more Indianization of equipment and even foreign manufacturers setting up units in India is happening. Indian manufacturing is improving similarly there is a large space for imported machineries for high-capacity food processing units as well as new technology areas and this exhibition is serving very good purpose.

**Manoj Joshi, Special Secretary
Ministry Of Food Processing Industries, GOI**

Exhibitor Survey

Did you meet your relevant target groups at the trade fair?

73%
Yes

How satisfied are you with the number and quality of visitors?
